

# Reading Club Fun!

Hi Everyone,

We hope you are having fun in the sun and relaxing afterwards in the shade with a good book! Lots of books are being published in series, because publishers have found that kids like looking forward to another exciting good book by their favorite author. Summer is a good time to read these books one after another to keep the fun going. We have made a list (below) of some of the most popular book series being snapped up! Also, check out our 2010 Books and Movies list to see what movies are coming out and what books (if any) they are based upon. Remember to visit your library often for great books, DVDs and CDs. Join their reading programs and attend the fun shows and activities that your librarians have planned for lots of free summer fun!
